(TAFE Course Convener)

Following my increased usage of web-based technology in my previous retail work, I decided to pursue my passion for software development.

Demonstrating a commitment to continuous learning and innovation I have developed an independent portfolio of web application projects and personal contracting.

I look forward to transitioning to a full-time role where I can access additional resources and contribute my knowledge to a team of like-minded individuals. As my references will attest, I am a motivated and reliable person who applies and welcomes feedback. I look forward to hearing how I can best suit your organisation.

Experience

Hardware & General - Brookvale   **August 2020 - Current**
Retail Associate

Enhanced interpersonal skills by liaising with stakeholders and customers to align with organizational goals. Including:

- Problem solving
- Appropriate escalation to senior individuals
- Attention to detail
- Customer facing professionalism

Driven to pursue information technology field following hands-on experience with diverse software. Such as:

- Enterprise software frameworks
- Product management
- E-commerce listings
- Data validation
- Online order flow
- Digital user satisfaction

Education

TAFE NSW   **December 2024**

Diploma of Information Technology Advanced Programing (ICT50220)

Following completion of this nationally accredited diploma. I have furthered my knowledge regarding:

- Front end application architecture, particularly scalable interfaces, react native, UI logic, component design and performance optimization
- Back end integration such as 'model view controller' [MVC] and 'c-sharp' [C#] data flow optimisation
- Legal frameworks related to responsible handling of user data
- Leading team projects in web design and mobile application development
